Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The prior art cited on the attached form PTO-892 is the most relevant prior art known. However, Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious an excusion architecture comprising all the specific elements with the specific combination including a memory array having a first, second block, a first and second I/O ports, first and second address ports, a configuration control port, a data controller and address generator (DCAG), a DMA controller and adress generator (DMACAG), a first excusion unit, a first local memory array, and a first local address generator (LAG) as set forth in claims 1-13. The cited references at most, contain only one or the other, but not all the limitations claimed. There would also be no reason to make any of the possible combinations.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue
